

Building Digital Health: CAT4 The Coding Cycle of Chronic Disease

DATE:	Monday 12th February 2018	LOCATION:	The Glen Hotel Cnr Gaskell St & Logan Road Eight Mile Plains QLD 4113
SPEAKERS:	Matthias Merzenich <i>Training Programs Manager PenCS</i>		
RSVP:	Monday 5th February 2018	TIME:	6:00 pm registration 6:30 pm start 8:30 pm finish
AUDIENCE:	All General Practice staff		
COST:	Free (Value \$25pp) <i>Meals included</i>		

Identifying patients with a possible chronic disease can ensure they are provided with the right care at the right time. The CAT Plus software suite can help you identify patients who may have fallen through the gaps and are missing from your current chronic disease registers. This event will provide you with the opportunity to see the CAT Plus software suite in action. You will also have the opportunity to discuss with your peers strategies to improve your Practice's data quality.

This session will provide you with knowledge on:

- How to easily identify patients who could be at risk of developing chronic disease
- How to build chronic disease registers
- Identifying revenue potential in the area of chronic disease management
- Discuss with your peers how to implement change in your practice
