

Pacific Coast Allied Health was established several years ago primarily to provide DVA clients with a professional and caring service. We take great pride in our services and are looking for an exceptional OT with excellent communication skills who enjoys working with elderly people, to join our team.

This is a contracted position 1-2 days a week providing home assessments and modification services to clients located between Jimboomba and South Brisbane.

NOTE: Successful candidate MUST live in between these areas due to the amount of travel involved.

While this position is currently listed as 1-2 days per week, there is the potential to expand down the track based on your performance and client demand.

You can set the days and times you want to work which makes this a very appealing position for OT's with children or to those seeking a second job.

The person we are looking for will have excellent computer skills and be able to work autonomously and as part of a team. Candidates must have an unrestricted driver's license as well as a registered and reliable vehicle.

They will need to have disciplined time management skills and be a problem solver. There is a lot of paperwork involved with this position and, therefore, time management is an essential skill to possess.

We have a passionate and caring team who love to share valuable information with each other to ensure we are providing the best possible service to our clients. We value our OT's and are always looking at ways in which we can improve our systems, so their input is greatly appreciated and respected.

Applicants with previous DVA home modification experience are preferential.

If you think you would be the perfect addition to our team, apply now!

Applications and expressions of interest to be emailed to managementsupport@epichs.com.au
