Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

As part of a broader planning agenda focussed on mental health, suicide prevention and AOD, Brisbane South PHN will continue to undertake the following activities to ensure a satisfactory level of organisational knowledge to commission AOD, mental health and suicide prevention services.

These activities seek to bridge AOD treatment sector structural issues through strengthening system coordination and referral pathways, building organisational capacity, supporting the workforce, contributing to continuous improvement, commissioning evidence-informed AOD treatment and building on information sharing systems.

Description of Activity *

1.1 Review and maintain governance structure

- Ensure governance structures are applied and maintained to Brisbane South PHN commissioned AOD treatment services
- Brisbane South PHN clinical governance specification to be included in service contracts
- Brisbane South PHN to ensure implementation of the National Quality Framework for Drug and Alcohol Treatment Services.

1.2 Service mapping

- Continue to update the regional AOD treatment service map and identify needs and services across the continuum of care. This work will further be developed through the local AOD Sector Collaborative

1.3 Comprehensive needs assessment

- Regularly review and update the AOD chapter in the Brisbane South PHN Needs Assessment

The National Drug Strategy 2017-26 identified several priority populations and priority substances. Asterisks indicate common priority populations or substances identified in the Brisbane South 2022-23 to 2024-25 Needs Assessment.

National Drug Strategy Priority Populations

- First Nations people *
- People with mental health conditions *
- Young people *
- Older people *
- People in contact with the criminal justice system
- Culturally and linguistically diverse populations *
- People identifying as lesbian, gay, bisexual, transgender, intersex, and/or queer/questioning *
- People with disability

National Drug Strategy Priority Substances

- Alcohol *
- Cannabis *
- Methamphetamines and other stimulants *
- New psychoactive substances
- Non-medical use of pharmaceuticals
- Opioids
- Tobacco *

Furthermore in Brisbane south there was anecdotal evidence of

- Increased need for people experiencing homelessness (especially when combined with poor mental health and chronic disease), and people from refugee backgrounds
- Increasing complexity of alcohol and other drug presentations due to exacerbated psychosocial impacts including domestic and family violence, mental health issues, suicidality and homelessness.
- Limited availability and accessibility of alcohol and other drugs services in the region
- Workforce issues

1.4 Regional integrated mental health and AOD strategy

- Ensure AOD needs and services are integrated in the strategy and plan

1.5 Service design, planning and evaluation (AOD Health and Service Plan)

- Assess and articulate the best way to invest resources in the Brisbane South PHN region to ensure service access is improved and better meets the AOD needs of the local population. This will encompass the full continuum of care, inclusive of:
 - early prevention and intervention
 - treatment
 - relapse prevention and post intervention.

The expected outcome of these activities is:

- That people in the PHN region are able to access appropriate AOD treatment services.
- Decrease in harm to population in PHN region from AOD misuse.

A program logic model will be developed to further refine outcome indicators, with reference to the Brisbane South PHN Performance and Outcomes Framework.

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

Brisbane South PHN will commission AOD treatment activities that enable and leverage treatment service capacity to:

- Eliminate waitlists for existing AOD services
- Establish and/or grow sustainable services in particularly high needs areas
- Enhance existing services to manage ongoing/growing demand
- Enhance service access to target underserved groups
- Enhance access to AOD treatment types in scope

Description of Activity *

Brisbane South PHN will commissioned AOD services that offer people with a range of interventions to influence and support the decision to delay, reduce or cease harmful substance use.

All general AOD service delivery providers commissioned will ensure that services provided are culturally appropriate for First Nations clients. However, a holistic mental health, suicide prevention and AOD response has been detailed under the Primary Mental Health Care Activity Work Plan – Priority Area 6. Aboriginal and Torres Strait Islander Mental Health Services (Social and Emotional Wellbeing).

The National Drug Strategy 2017-26 identified several priority populations and priority substances. Asterisks indicate priority populations or substances identified in the Brisbane South 2022-23 to 2024-25 Needs Assessment.

**Activity Priorities and Description****Program Key Priority Area ***

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

To enhance and better integrate First Nations AOD services at a local level within the primary care system.
 To facilitate a joint approach with other closely connected services including social and emotional wellbeing, community and non-community controlled AOD, suicide prevention and mental health services.

Description of Activity *

This activity will:

- Continue to build on previous community-led, place-based and evidenced based programs
- Focus on other associated needs such as mental health and suicide prevention to improve social and emotional wellbeing
- Establish and maintain partnerships across the local region to support sector engagement including Indigenous communities
- Extend, expand and enhance existing AOD services, including service integration and coordination.

A program logic model will be developed to identify appropriate outcome indicators, with reference to the Brisbane South PHN Performance and Outcomes Framework.

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

The aim of Brisbane South PHN capacity building activities is to enhance the knowledge of the current AOD workforce, embed evidence-informed treatment underpinned by harm reduction frameworks and develop a sustainable AOD workforce including the peer workers.

As a result of this work health care providers in the PHN region will have an integrated approach to AOD treatment services. Additionally, the local workforce will have suitable clinical and cultural skills to address health needs of the PHN region.

Description of Activity *

To achieve this, PHN commissioned activities will:

- Understand the specialist AOD prevention and treatment workforce through consultation with local and state bodies
- Develop a sustainable specialist AOD prevention and treatment workforce through strategic consultation and use innovative design to enhance current roles
- Support the AOD workforce to cater for older clients, people with multiple morbidities and/or complex needs and improve access to child and family secure practice
- Enhance service capacity through the development of a peer workforce
- Increase the capacity of the workforce to respond appropriately to AOD issues among First Nations peoples

- Increase the capacity of the workforce to respond appropriately to vulnerable populations of people with AOD issues including:
- culturally and linguistically diverse (CALD) groups
- lesbian, gay, bisexual, transgender, intersex and/or queer/questioning individuals
- primary health, community, welfare and support services and the criminal justice workforce

A program logic model will be developed to identify appropriate outcome indicators, with reference to the Brisbane South PHN Performance and Outcomes Framework.

Brisbane South PHN undertook a significant co-design process for the redesign of primary mental health, suicide prevention, and alcohol and other drugs services in the region. Further detail is provided in the MHSPAOD Strategy 2019-22:

<https://bsphn.org.au/wp-content/uploads/2019/03/Brisbane-South-Mental-Health-Suicide-Prevention-and-Alcohol-and-Other-Drug-MHSPAOD-Strategy-2019-2022.pdf>

Since the major co-design process the PHN has embedded place-based sub-regional groups with representation across HHS, GPs, service providers from across the sector and including those with lived experience. These sub-regional groups continue to inform our placed-based and person-centred service model (co-production).

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

This activity aims to improve support and training available to GPs to treat drug and alcohol addiction.

Description of Activity *

The Royal Australian College of General Practitioners (RACGP) and the Australian College of Rural and Remote Medicine (ACRRM) have been funded by the Commonwealth to improve support and training available to GPs to treat drug and alcohol addiction. The GP Colleges have developed a training package which will be delivered through grants to GPs interested in pursuing training. Priority will be given to GPs practicing in geographic locations with populations that experience relatively increased rates of alcohol and other drugs concerns.

Brisbane South PHN will also commission additional resources to support a whole of general practice approach to working with people experiencing alcohol and other drug concerns, designed for other general practice team members such as practice managers and reception staff.
