Community Wellbeing Grants Initiative – Jimboomba & Surrounds

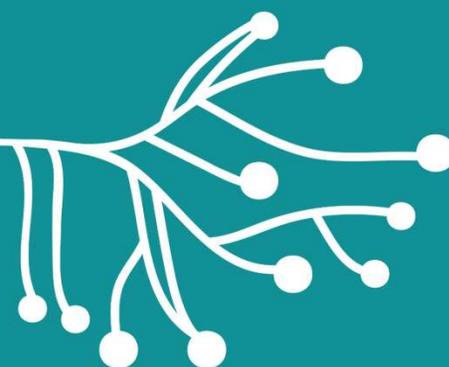

Baugull nyungai Gurumba bigi Maroomba biggee

We acknowledge the Traditional Custodians of the land on which we live and work, and of the many different nations across Australia.

We pay our respects to the Elders, past, present and emerging, as the holders of the memories, the traditions, the culture and the spiritual wellbeing of the Aboriginal and Torres Strait Islander peoples across the nation.

Background

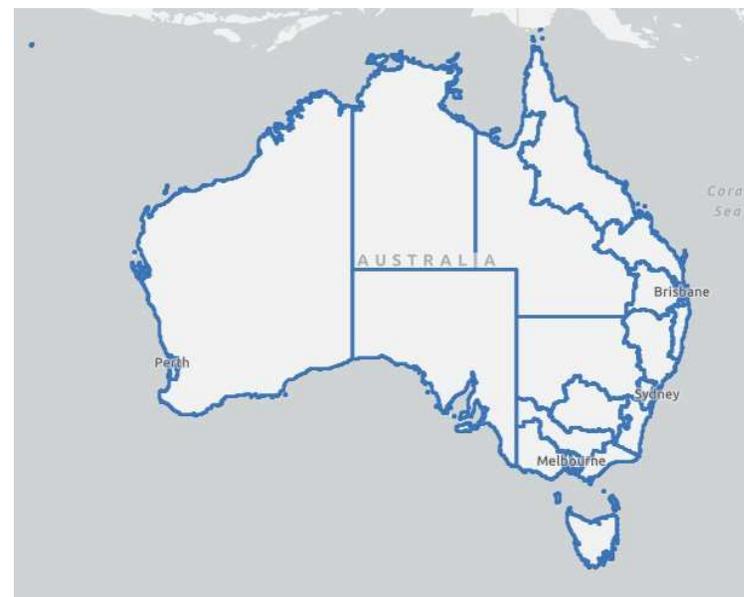

Primary Health Networks (PHNs)

Independent organisations funded by the Department of Health and Aged Care to manage health regions.

31 PHN regions which closely align with state and territory local hospital networks.

Roles:

- Assess the health needs of their region using a people-centred approach.
- Commission health services to meet the prioritised health needs of the people in their region.
- Work closely with providers to build health workforce capacity and ensure they deliver high-quality care.
- Connect health services for people to encourage better use of health resources and avoid duplication.

Brisbane South PHN:

The Brisbane South PHN region is predominately a metropolitan region with pockets of rural (Beaudesert) and remote (Bay Islands) areas

Our key objectives are:

- to increase the efficiency and effectiveness of medical and mental health services, particularly for those most vulnerable in the community
- to improve coordination of care ensuring individuals receive the right care in the right place at the right time.

We do this through a commissioning approach. Our efforts focus on improving the system for everyone – individuals, families, communities, health professionals, key stakeholders and the primary health sector

Context

- Jimboomba and surrounding areas are a growing region, with a 72% projected growth by 2036.
- Local feedback indicates that the community would benefit from greater access to mental health and wellbeing supports
- BSPHN has identified the need to support community-led mental health and wellbeing initiatives within the region
