

Interpreting for Allied Health Professionals Program

Overview

Brisbane South PHN (BSPHN) has established the Interpreting for Allied Health Professionals Program to:

- Support access to private allied health services by non-English speaking clients
- Ensure free interpreting services are available to Allied Health Professionals (AHPs) working in private practice to communicate with non-English speaking clients.

Program Summary

The Program is funded by BSPHN through a capped funding stream. Brisbane South PHN will administer the Program within the [BSPHN catchment area](#), with the interpreting services delivered by Translating and Interpreting Service (TIS) National. The Program enables registered AHPs to receive FREE access to the following interpreting services:

- Immediate phone interpreting
- Pre-booked phone interpreting
- On-site interpreting

Allied Health Professionals are encouraged to consider phone interpreting as the first point of interpreting, particularly for all mild to moderate interpreting needs. When phone interpreting would not be suitable, an AHP can make a booking for on-site interpreting.

Eligibility

Allied Health Professionals that are eligible for this Program include:

- Diabetes Educators
- Dietitians
- Physiotherapists
- Exercise Physiologists
- Podiatrists
- Dentists
- Optometrists
- Speech Pathologists
- Audiologists
- Occupational Therapists
- Social Workers
- Psychologists
- Mental Health Nurses

Allied Health Professionals that do not meet the eligibility criteria can contact us to consider their individual situations.

Allied Health Professionals that are involved in the Program must agree to:

- Complete cross cultural/use of interpreter training
- Participate in an evaluation survey of the Program

Further Information

Please contact **Nicole** or **Andrea** on **3864 7580** or refugeehealth@bsphn.org.au
