Course Structure

Students will be required to complete professional reading to ensure a level of base knowledge and understanding.

During the two day workshop topics and activities will include:

- Wound assessment
- Identifying and managing different types of wounds Using local anesthetic Closure methods and selection of appropriate materials
- Demonstrations
- Simulated wound closure
- Practical Techniques and simulated assessment tasks
- Documentation and follow up and referral

Students will be required to attend a two (2) day lecture and workshop.

At the completion of the program, you will have the skills and knowledge to determine the best wound closure technique for a wound to achieve durability, simplicity, excellent cosmetic outcome, and overall patient satisfaction.

**\$1,245.00
(inc GST)
per student**
