

Best Practice:

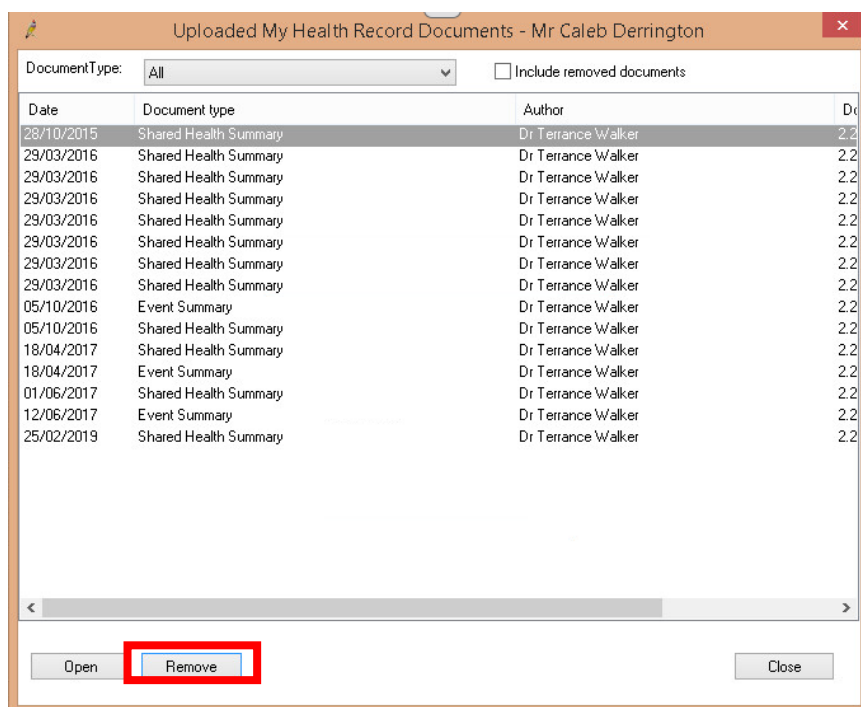

Deleting authored documents from My Health Record

In Best Practice, open patient record.

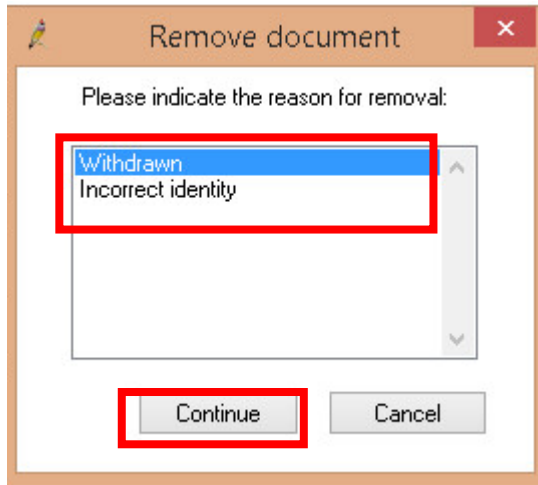

1. Select *My Health Record* from top menu and click *My Uploaded Documents*.

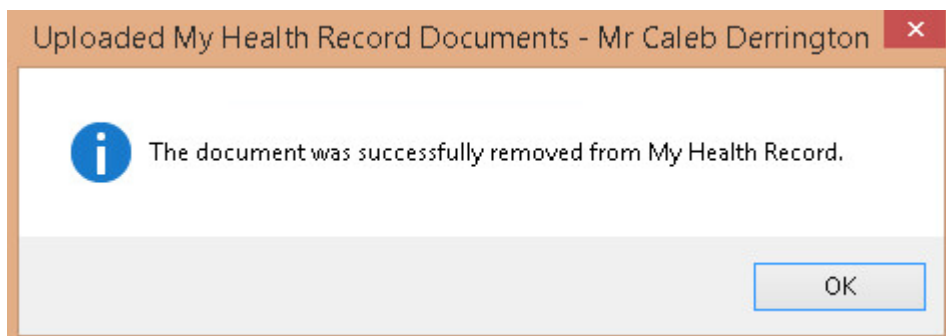

2. This will display all of the documents you have authored to the patients My Health Record. Highlight the document you would like to remove and click *Remove*. Please note, you can only remove documents you have authored.

3. Select the reason for document removal and *continue*.

4. The document has now been removed.

5. Removed documents will be shown in red font.
