When submitted this Activity Work Plan to the Department of Health, the PHN must ensure that all internal clearances have been obtained and has been endorsed by the CEO.

Overview

This Drug and Alcohol Treatment Services Activity Work Plan covers the period from 1 July 2019 to 30 June 2022. To assist with PHN planning, each activity nominated in this work plan can be proposed for a period of up to 36 months. Regardless of the proposed duration for each activity, the Department of Health will require PHNs to submit updates to the Activity Work Plan on an annual basis.

Important documents to guide planning

The following documents will assist in the preparation of your Activity Work Plan:

- Guidance for PHNs: Commissioning of Drug and Alcohol Treatment Services;
- Drug and Alcohol Treatment Information Strategy for PHNs;
- Drug and Alcohol Treatment Services Needs Assessment Toolkit;
- PHN Needs Assessment Guide;
- Activity Work Plan Guidance Material;
- PHN Program Performance and Quality Framework;
- Primary Health Networks Grant Programme Guidelines;
- Clause 3, Financial Provisions of the Standard Funding Agreement.

Guidance for PHNs: Commissioning of Drug and Alcohol Treatment Services

The *Guidance for PHNs: Commissioning of Drug and Alcohol Treatment Services* document (available on the PHN Secure Data Portal) has been developed to assist PHNs in understanding the Department's expectations in relation to activities that are in scope for funding, and will assist in translating drug and alcohol treatment evidence into a practical approach.

The high-level activities in scope under Core and NIAS Funding allocations include:

- Early intervention (including Brief Intervention)
- Counselling
- Withdrawal Management
- Residential Rehabilitation
- Day Stay Rehabilitation (and other intensive non-residential programs)
- Aftercare / relapse Prevention
- Case management, care planning, and coordination
- Information and Education
- Workforce Development, Capacity Building, including supporting the workforce through activities which promote joint up assessment and referral pathways, quality improvement, evidence based treatment, and service integration.

Activities relating to planning and consultation are to be funded under the Operational Funding allocation.

Key principles underpinning activity requirements

Drug and Alcohol Treatment Activity Work Plans are also expected to satisfy the following key principles underpinning drug and alcohol activity requirements:

- Proposed activities are evidence-based and in-scope of funding as detailed in *Guidance for PHNs: Commissioning of Drug and Alcohol Treatment Services*.
- Proposed activities are clearly aligned with priorities identified in the corresponding Needs Assessment.
- The majority of total Core and NIAS Funding is allocated to the delivery of specialist drug and alcohol service delivery (i.e. direct treatment activities) as opposed to non-treatment activities (e.g. workforce development, also in scope of this funding).
- Detailed budgets are provided outlining funding with a clearly identified allocation for each activity (including sub-activity) type.
- Proposed activities for Indigenous-specific and mainstream services are clearly delineated, including evidence of consultation and engagement from local key Indigenous stakeholders.
- Governance arrangements are clearly articulated, and include representation from key regional stakeholders such as Local Health Networks (or equivalent), State Government and specialist drug and alcohol service providers.

This funding is intended to complement existing Commonwealth and state and territory funded drug and alcohol treatment activities. Therefore, it is expected that existing state and territory funding, strategies, and frameworks are considered in the development of your Activity Work Plan to ensure services are complementary and do not duplicate existing efforts.
