

# The Asthma Conference

*Shifting the  
dial on asthma.*

9-10 JUNE 2020 MELBOURNE

The 2020 Asthma Conference aims to spark a movement of coordinated, committed and person-centred change makers who will Shift the Dial for people living with asthma.

Across the two days of The Asthma Conference, delegates will move to the edge of their learning zone and explore why the dial needs to shift, what it could look like and how we will Shift the Dial.

We invite pharmacists, nurses, GPs, asthma educators, policy makers, systems change experts and researchers to come

with an open mind, ready to share experiences and learn, putting people with asthma at the centre of the lens of how we can create much-needed change.

***“Never doubt that a small group of thoughtful, committed citizens can change the world” – Margaret Mead.***

**Join us at The Asthma Conference and become part of something big to drive change for people with asthma.**
