

**It's time!**

## Pharmacists in general practice and aged care

This is a call to action to any pharmacist committed to developing their skills as a core member of the health care team. It's time for pharmacists to be embedded in aged care. It's time for all Australian general practices to include pharmacists as a part of their interdisciplinary team.

Join us to breakdown a challenging scenario of an 'inherited' patient with complex healthcare needs. There are limited foundation training workshops which guide pharmacists with an approach that ensures compassion, interdisciplinary collaboration and rational clinical decision-making. Learn how to proactively assess and prioritise a patient's healthcare journey in collaboration with other healthcare providers.

**Nicolette Ellis:** Nicolette is an Advanced Pharmacist Advisor for QLD Health and senior clinical pharmacist for Beyond Pain, an interdisciplinary persistent pain videoconferencing program. A regular presenter and national trainer, she is passionate about improving access to multidisciplinary care for those living with persistent pain. She also runs “The Rainbow Pharmacist”, a content series featuring prominent influencers in pharmacy and exploring all the colours of the healthcare rainbow.

**Joy Gailer:** Joy is an Advanced Practice Pharmacist with the Drug and Therapeutics Information Service and Practice Support Pharmacist at Chandlers Hill Surgery. She has a passion for assisting general practitioners and patients make the best possible decisions regarding medicines.

**Debbie Rigby:** Debbie is an Advanced Practice Pharmacist with postgraduate qualifications in clinical pharmacy, geriatrics and respiratory medicine. Debbie is a Director of NPS MedicineWise and a past National Vice-President of the Pharmaceutical Society of Australia. She currently works in a general practice, conducts Home Medicine Reviews and provides medicines education to pharmacists, nurses, GPs and other health professionals through her company Pharmeducation. For her passion and commitment to the pharmacy profession and quality use of medicines, Debbie has received numerous awards including PSA Pharmacist of the Year, the inaugural AACP Consultant Pharmacist of the Year, and SHPA Clinical Pharmacy Award.
